## MISSION

To defeat senior seclusion by providing group activities that keep seniors interacting with others. Our main focus is on senior’s health and wellness

## PHILOSOPHY

Since 2012, our 501c(3) organization has been dedicated to improving the lives of seniors including individuals with disabilities and other underprivileged seniors living in Miami Dade County.

## WHO WE ARE

At South Florida Seniors in Action, we come to work every day because we believe that seniors have much to teach us and yet there is still a lot that seniors can learn, especially living in the age of technology. Our organization creates fun, informative, interactive events and classes that foster community involvement and interaction among seniors and between seniors and other generations.

Our facility offers free educational seminars, immigration clinics for U.S. Citizenship, and computer courses to help seniors live more functional and independent lives. Our classes and facilities are open and free to all Miami Beach senior residents.
